

Pro Tools | Mbox

High-resolution, high-performance, 4x4 audio interface for Mac and Windows

Record, edit, and mix performances—with stunning sound quality—using the professional-grade Pro Tools® | Mbox audio interface. This powerful, portable interface comes with Pro Tools Express software at no additional charge, giving you the core toolset used by professionals and in world-class studios worldwide. Easily connect mics, instruments, monitors, and more with your computer to capture and create studio-quality productions with ease.

Use Pro Tools Express to sound your very best, or pair Mbox with your favorite third-party audio software such as Logic, Live, Fruity Loops, Cubase, and more. No matter what you choose, you'll always sound amazing, as Mbox was designed by the same team who created our top-of-the-line Pro Tools | HD Series interfaces, giving you the sonic clarity of interfaces costing much more.

Hardware features

- Get best-in-class sound quality and performance with professional-grade circuitry and premium audio conversion
- Connect and control your gear with:
 - 4 x 4 simultaneous channels of I/O
 - Two XLR mic/line combo inputs with professional-grade mic preamps and 48V phantom power
 - Two 1/4" DI inputs on front panel for easy access
 - Two balanced 1/4" monitor outputs
 - One 1/4" stereo headphone output with volume control
 - Stereo S/PDIF digital I/O
 - One MIDI input, one MIDI output
 - Monitor control section with Mono and Dim controls
 - Dedicated monitor volume knob
- Track hotter signals without clipping with the soft-clip limiter
- Ensure your instruments are in tune with the built-in guitar tuner
- Set up flexible cue mixing and reverb effects with the onboard DSP
- Create anywhere you go with bus-powered USB 2.0 connectivity

Pro Tools Express features

- Create music and sound for picture using the core industry-standard tools used by top producers, engineers, and artists
- Sound your best and get optimal performance, as Pro Tools Express tightly integrates with Mbox
- Record and mix up to 16 stereo audio tracks at 32-bit, 96kHz resolution
- Compose music easily with AIR virtual instruments, MIDI editing, and Sibelius® notation tools
- Change tempo, timing, and pitch, and create harmonies in real time with Elastic Time and Elastic Pitch
- Create pro-quality mixes with a collection of high-quality plug-ins and Automatic Delay Compensation
- Take your projects to the next level—and to studios around the world—with session file compatibility across all Pro Tools systems

Pro Tools | Mbox—Premium, high-performance 4x4 audio interface

Mbox is designed by the same engineering team behind our top-of-the-line Pro Tools | HD family of systems. That means you get the exceptional audio quality and ease of use enjoyed by commercial studios in the comfort of your own home, project studio, or wherever inspiration takes you. Whether you want to record yourself or a friend, you'll sound better than ever.

Front

Rear

Pristine quality, powerful performance

Get best-in-class audio quality, exceptional performance, and the lowest possible latency in everything you do with Mbox, featuring professional grade converters, advanced recording technology, and a premium analog signal path. And with our stringent testing standards, you're assured of rock-solid performance in even the most demanding environments.

Work the way you want

Get the flexibility to work in more ways than ever. Use Mbox with the included Pro Tools Express software—and when you're ready, upgrade to Pro Tools | Software at a great deal for maximum creativity, speed, ease, and total session compatibility with Pro Tools studios worldwide. Or get great performance when you use Mbox with any Core Audio- or ASIO-compatible software, such as Logic, Live, Record, Reason, Digital Performer, Fruity Loops, Cubase, Nuendo, Sonar, and more.
